

PRESS RELEASE
For immediate distribution

THE LETTER “G” OVINE TAG WILL SOON BE AVAILABLE

Longueuil, November 12, 2018 – There’s only a few weeks left for lamb producers to order the letter “F” (2018) ovine tags distributed by Agri-Traçabilité Québec (ATQ).

The production of tags with the letter for the current year will cease at the beginning of December. Sheep producers have until **December 7** to order and pay for tags with these marking for any lambs born from now until the end of December 2018.

As of **Monday, December 10**, the letter “F” ovine tags will no longer be available and will be replaced by letter “G” tags for lambs born in January 2019 onwards.

It should be noted that a period of two (2) weeks is necessary from the moment a payment is received at ATQ for the set of tags to be delivered at the farm.
